

## **Dear parents! Don't have an Edupage account yet?**

Here's how to create one:

In our information system, we are only able to create accounts for students. Parental accounts must be created by the parents themselves, via Edupage (there can be up to two different parent accounts), but first, the school must enter the parent's personal information into the system (name, surname and e-mail address).

Send a request with the required data to the class teacher (or to [hason@gympaba.sk](mailto:hason@gympaba.sk)), who will ensure the entry of the information into Edupage.

Upon confirmation of the data entry, you can create an account by entering your e-mail address as the "name" on the Edupage login page: <https://gympaba.edupage.org/> and since you do not yet have a password, click on the link "I don't know the login name or password". After re-entering your e-mail address, you will receive an e-mail link to a page where you will be able to choose a password. The password can also be changed this way (if it's forgotten, for example).

It is advisable to have a parent account; it facilitates communication with the class teacher, other teachers, the school management and other parents. It enables parents to sign marks and notes, excuse student absences, participate in surveys and questionnaires, as well as communicate confidentially without the knowledge of the student.
