

*VELVYSLANEC
SLOVENSKEJ REPUBLIKY
AMBASSADOR
OF THE SLOVAK REPUBLIC*

Kuwait, March 23, 2021

Dear Paed Dr. Silvia Dadajova,

I would like to take this opportunity and inform you about an important success of one of the students of MYP program, Yousuf Shafout.

The Ministry of Education, Science, Research and Sport of the Slovak Republic organized a literary and creative contest in which 500 Slovak children, living abroad, took part.

The result of this effort is a beautiful book of Slovak Fairy Tales from All Over the World, which was written and illustrated by the Slovak children who live abroad.

The main idea behind this project is to encourage the young children to improve and keep their interest for the mother language in written form, active reading and speaking.

Yousuf Shafout participated in this contest and despite the intense competition, Yousuf's story was chosen by the Committee in charge and it is therefore included in the book of Slovak Fairy Tales from All Over the World.

On February 24, 2021, I personally delivered on behalf of the Ministry of Education, Science, Research and Sport of the Slovak Republic a diploma and a prize to Yousuf Shafout.

I am sure that you are proud of him as much as we are. His success is a proof of the high level of education the Kuwait English School is providing to young children.

Yours sincerely,

Dr. Igor Hajdušek
Ambassador of the Slovak Republic to the
State of Kuwait
